

Who are we and what can we do for you?

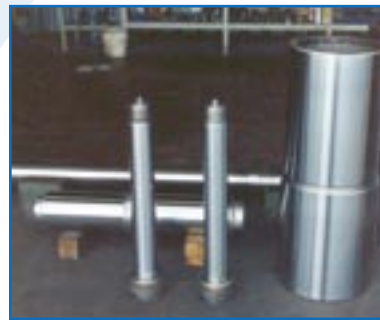

The REM.B/MORSSINKHOF HYDRAULICS GROUP consist of a network of companies with experienced and specialised employees. Due to inter company co-operation within the group, we can provide a complete solution to all hydraulic problems in a fast and efficient manner.

OUR ACTIVITIES:

1. Repair, re-manufacturing and maintenance of all hydraulic equipment.
2. Manufacturing of hydraulic components and representation/distribution of well-known and fast-moving hydraulic parts ad complete units.
3. Hydraulic equipment manufacturing, maintenance and trouble shooting.

Our group is at your service with over 95 employees.

We specialise in high quality repairs and testing of all types of hydraulic cylinders, pumps, motors and valves. Various powerful test rigs are available within our different locations. The modern machine shop had both CNC and manual lathes, fully automatic lapping and circular grinding machines, honing and planning equipment. The hydraulic repair workshop has a computer-controlled management system. Our group's outside field service is on call 24 hours a day.

The division Remanufacturing and Surface Treatment provides the group with its hard chroming requirements. A new environmentally friendly three-tank facility is used in order to supply high-quality hard chroming for all type of cylinder rods, tubes and shafts. The high-quality finishing is a direct result of using high-precision circular grinding machines.

WE ARE OFFICIAL REPRESENTATIVES FOR:

TTS/HYDRALIFT Cranes

ENERPAC High Force Tools

CCJENSSEN Filtration systems

Who are we and what can we do for you?

Morssinkhof Hydraulics and REM.B Hydraulics specialises in the repair and remanufacturing of all makes of variable piston pumps, motors and valves including Bosch-Rexroth, Hydromatik, Brueninghaus, Sauer, Vickers, Kawasaki... and high torque motors (Hagglunds, Staffa, Poclain etc...) for our worldwide customers. All units are tested and delivered with a report indicating the condition of the unit after repair. An extensive range of service exchange pumps and motors is also available ex stock.

OUTSIDE FIELD SERVICE, ON CALL 24 HOURS A DAY

Morssinkhof Hydraulics and REM.B have outside field service departments and are on call 24 hours a day for urgent repairs anywhere in the world.

Morssinkhof Hydraulics has over 30 years experience in the manufacturing of component spare parts such as cylinder blocks, pistons, drive shafts, centre pins and valve plates. All manufactured items are subjected to stringent quality controls. A comprehensive stock of all our own manufactured parts is held in our warehouse. We sell Morssinkhof- made products, genuine units and genuine spare all over the world.

Morssinkhof Hydraulics and REM.B are representing various brands of original equipment hydraulic manufactured products (cylinders, valves, pumps and motors) as well as spare parts. Due to our international contacts, we can also source those more difficult parts in the shortest possible time.

As a result of our activities Morssinkhof Hydraulics and REM.B have acquired the knowledge to become well-known specialists in off-line fine filtration. This type of filtration leads to improved component lifetime.

A full range of products is available:

- Oil analyses according to NAS or ISO classifications.
- Various filtration systems.

Finally we can also provide assistance in specific measuring equipment for controlling hydraulic parameters.
